

MailStore 11.2 – Ready for Exchange 2019

Viersen, Germany, 26 September 2018 +++ MailStore Software GmbH, the German specialist for email archiving solutions, has released MailStore version 11.2 today. This version supports Microsoft Exchange Server 2019, which Microsoft has announced for the end of the year. This means MailStore users can also operate their email archiving software with the market-leading supplier of email infrastructure's most recent email system, as soon as Exchange Server 2019 is available.

“Our customers are used to a high level of quality and flexibility from MailStore,” says Philip Weber, Managing Director of the Viersen-based software vendor. “The fact we have already refined our software before the market launch of Exchange Server 2019 once again underlines our expertise as a SME in being able to offer our customers efficient and contemporary email archiving.”

Both MailStore Server as well as the MailStore Service Provider Edition (SPE) and MailStore Home are ready for Exchange 2019 now.

About MailStore

MailStore Software GmbH, one of the worldwide leading providers of email archiving solutions, is headquartered in Viersen, Germany (near Düsseldorf) and is a subsidiary of [Carbonite, Inc. \(Nasdaq: CARB\)](#), a global leader in data protection, headquartered in Boston, USA. Over 50,000 companies and public and educational institutions in more than 100 different countries have placed their trust in the products of this German specialist.

MailStore also offers a solution developed specifically for providers, the MailStore Service Provider Edition (SPE). This solution allows providers to offer their customers email archiving as a managed service.

MailStore Home is another product in the portfolio that allows individual users to archive their personal emails. MailStore Home is currently used by over one million users worldwide.
