

MailStore Version 24.3 Now Available

Improved Search Function for Users and Administrators

Viersen, 03.07.2024 +++ The German specialist for email archiving, [MailStore by OpenText](#), is today launching the latest version, V24.3, of its MailStore email archiving solutions. The update for [MailStore Server](#), the [MailStore Service Provider Edition \(SPE\)](#) and [MailStore Home](#) offers a more convenient search function.

- **The Search Function Is Now More Convenient**

Previously, individual search terms in the MailStore search function were automatically linked with a logical AND. With version 24.3, individual search terms can also be linked with OR. To do so, it is sufficient to enclose the individual search terms in square brackets. This new feature makes searching for archived email data even more convenient and accurate. Example: The search “[to:Tim to:Ralf]” finds all archived emails to Tim or Ralf. Previously, this required two search queries.

- **Increased Security**

Version 24.3 replaces an outdated third-party component with integrated, proprietary functions, thereby further increasing product security.

As usual, Version 24.3 of **MailStore Server** and the **MailStore SPE** were certified by an independent IT auditor and data privacy expert. The GDPR certificate relates to the processing of personal data, which for both solutions comply with the requirements of the EU's GDPR and the Federal Data Protection Act (DSG) in Switzerland, respectively.

Further information about MailStore V24.3 can be found in [this blog post](#). Information about MailStore as well as images can be downloaded [here](#).

About MailStore

MailStore Software GmbH from Viersen near Duesseldorf, Germany, is a subsidiary of OpenText, “The Information Company” (NASDAQ: OTEX) (TSX: OTEX) and one of the world's leading providers of email archiving solutions. Over 100,000 companies, public authorities and educational institutions in more than 100 countries have placed their trust in the products of the German specialist.

MailStore was awarded the [Business Excellence Award 2023](#) in the category “Best Independent Email Archiving Vendor”.

Also, with its Service Provider Edition (SPE), MailStore offers a solution that is tailored to the needs of MSPs, who can provide their customers with email archiving as a managed service.

The product portfolio also includes MailStore Home, a solution that enables individual home users to archive their private emails free of charge. MailStore Home is currently used by more than 1,000,000 people worldwide.
