

MailStore Version 24.4 Now Available

New App for Outlook and increased Security

Viersen, 10.10.2024 +++ The German specialist for email archiving, [MailStore by OpenText](#), is today launching the latest version, V24.4, of its MailStore email archiving solutions. The update for [MailStore Server](#), the [MailStore Service Provider Edition \(SPE\)](#) and [MailStore Gateway](#) brings important new features:

- **New App for Outlook**
Users can now access MailStore directly via Outlook - both cloud and web-based - as the new app integrates the functions of MailStore Web Access into the client. The integration of the new app is possible in all Outlook versions with corresponding app support. For all other Outlook versions that do not support apps, the existing MailStore Outlook Add-in will remain available. Further details can be found in our [online help](#).
- **Archiving Emails With Binary Content**
MailStore V24.4 now supports archiving emails with binary content from MailStore Gateway. This improves the reception of Microsoft 365 journal messages via the BDAT SMTP command (RFC 3030).
- **Increased Security**
MailStore Gateway now uses .NET 8, which increases security.

As usual, Version 24.4 of **MailStore Server** and the **MailStore SPE** were certified by an independent IT auditor and data privacy expert. The GDPR certificate relates to the processing of personal data, which for both solutions comply with the requirements of the EU's GDPR and the Federal Data Protection Act (DSG) in Switzerland, respectively.

Version 24.4 is now available for MailStore Server, the MailStore SPE and MailStore Gateway.

Further information about MailStore V24.4 can be found in [this blog post](#). Information about MailStore as well as images can be downloaded [here](#).

About MailStore

MailStore Software GmbH from Viersen near Duesseldorf, Germany, is a subsidiary of OpenText, "The Information Company" (NASDAQ: OTEX) (TSX: OTEX) and one of the world's leading providers of email archiving solutions. Over 100,000 companies, public authorities and educational institutions in more than 100 countries have placed their trust in the products of the German specialist.

MailStore was awarded the [Business Excellence Award 2023](#) in the category "Best Independent Email Archiving Vendor".

Also, with its Service Provider Edition (SPE), MailStore offers a solution that is tailored to the needs of MSPs, who can provide their customers with email archiving as a managed service.

The product portfolio also includes MailStore Home, a solution that enables individual home users to archive their private emails free of charge. MailStore Home is currently used by more than 1,000,000 people worldwide.
