MailStore Version 25.3 Now Available

Indexing of E-invoice Formats +++ SMTP Connection Type With OAuth2 for Microsoft 365

Viersen, 02.07.2025 +++ The German specialist for email archiving, MailStore by OpenText, is today launching the latest version, V25.3, of its MailStore email archiving solutions. The update for MailStore Server, the MailStore Service Provider Edition (SPE), and MailStore Home brings important new features:

- **MailStore Indexes E-invoice Formats**
  E-invoices sent by email have always been able to be archived with MailStore. Digital invoice formats such as ZUGFeRD or XRechnung are now fully indexed in MailStore V25.3 to make it easier to find e-invoices in the archive using the search function.

- **New SMTP Connection Type With OAuth2 for Microsoft 365**
  Microsoft 365 users can look forward to a new SMTP connection type in MailStore V25.3. The new SMTP connection type supports OAuth2 authentication for sending emails via Microsoft 365. The previous "Standard" setting will no longer be supported from September 2025.

As usual, Version 25.3 of MailStore Server and the MailStore Service Provider Edition (SPE) were certified by an independent IT auditor and data privacy expert. The GDPR certificate relates to the processing of personal data, which for both solutions comply with the requirements of the EU's GDPR and the Federal Data Protection Act (DSG) in Switzerland, respectively.

Version 25.3 is now available for MailStore Server, the MailStore SPE and MailStore Home.

Further information about MailStore V25.3 can be found in this blog post. Information about MailStore as well as images can be downloaded here.

About MailStore

MailStore Software GmbH from Viersen near Duesseldorf, Germany, is a subsidiary of OpenText, "The Information Company" (NASDAQ: OTEX) (TSX: OTEX) and one of the world's leading providers of email archiving solutions. Over 100,000 companies, public authorities and educational institutions in more than 100 countries have placed their trust in the products of the German specialist.

MailStore was awarded the Business Excellence Award 2023 in the category "Best Independent Email Archiving Vendor".

Also, with its Service Provider Edition (SPE), MailStore offers a solution that is tailored to the needs of MSPs, who can provide their customers with email archiving as a managed service.

The product portfolio also includes MailStore Home, a solution that enables individual home users to archive their private emails free of charge. MailStore Home is currently used by more than 1,000,000 people worldwide.
